ThaiTan Tran

Senior Mobile / Full-Stack Software Developer

(346) 472-7211 | tran.dev.327@gmail.com | GitHub: cloudy-ninja

---

Professional Summary

Innovative **Mobile Developer with 7+ years of experience** designing, developing, and maintaining high-quality mobile applications for **iOS and Android**. Strong background in **React Native, native Android (Java), native iOS (Swift)**, and **full-stack development**. Proven ability to collaborate with cross-functional teams, integrate complex APIs, implement CI/CD pipelines, and deliver **scalable, secure, and user-centric mobile solutions** aligned with business goals.

Core Skills

Mobile & Front-End Development

- React Native, Flutter, Android (Java), iOS (Swift)
- JavaScript, TypeScript, HTML5, CSS3/SCSS
- React.js, responsive UI design, UX optimization
- Custom UI components, Auto Layout, UICollectionView, modern mobile design patterns

Back-End & APIs

- Node.js (Express), Python (Flask)
- RESTful APIs, JSON, GraphQL
- Authentication, secure data exchange, third-party SDK integration

Databases & Cloud

- MySQL, PostgreSQL, MongoDB, SQLite
- AWS (application hosting, backend services)
- Database design, optimization, and synchronization

DevOps & Architecture

- CI/CD pipelines: Fastlane, Bitrise, CircleCI (Jenkins/GitHub Actions–ready)
- GitHub, GitLab, Bitbucket, SVN
- MVC, MVP, MVVM architecture
- Scalable, performant, and secure system design

Process & Collaboration

- Agile/Scrum, Kanban
- Jira, Trello
- Code reviews, unit testing, SDLC best practices

Professional Experience

Senior Full-Stack Developer

Matto Espresso – New York (Remote) | *May 2021 – Nov 2025*

- Led end-to-end development of **mobile and web applications** for coffee ordering, payments, and real-time order tracking.
- Designed and implemented **scalable mobile architectures** using React Native and native mobile technologies.
- Integrated **RESTful and GraphQL APIs** for menu management, customization, and transaction workflows.
- Collaborated closely with **UI/UX designers** to translate wireframes and prototypes into intuitive, high-performance mobile interfaces.
- Managed **CI/CD pipelines** and automated deployments, ensuring stable releases and rapid iteration.
- Worked with cloud infrastructure and databases (AWS, MySQL, MongoDB) to ensure performance and reliability.
- Mentored developers through code reviews and architectural guidance, improving code quality and delivery speed.

Mobile Application Developer

Pizza Hut Digital Ventures (Yum! Brands) – Ho Chi Minh City | *Mar 2019 – Nov 2020*

- Developed and deployed **production-grade Android and iOS applications** for global markets (Japan, New Zealand, Singapore, Kuwait, Malaysia).
- Implemented core features including authentication, menu browsing, checkout, and order processing.

- Integrated **RESTful web services** and optimized data loading using Android architecture components.
- Enhanced user engagement through **push notifications** and performance optimizations.
- Streamlined development with **CI/CD automation** using Fastlane and CircleCI.

Mobile Application Developer

GlassEgg – Ho Chi Minh City | *May 2017 – Feb 2019*

- Designed responsive and reusable mobile UIs using Auto Layout, XIBs, and custom collection layouts.
- Improved performance and UX by leveraging **IGListKit** and optimized rendering strategies.
- Implemented **real-time chat features** using WebSockets.
- Delivered in-app purchase functionality and maintained high code quality standards.

Mobile Application Developer

CMN Online – Ho Chi Minh City | *Jan 2015 – May 2017*

- Developed a **native mobile SDK** for gaming platforms supporting authentication and in-app purchases.
- Built secure payment and authorization flows using Objective-C.
- Integrated SDKs with Unity and Cocos2d-based games, ensuring stability and performance.

Education

Bachelor of Science in Computer Science
Cao Thang Technical College – Ho Chi Minh City | *2010 – 2013*

Certificates

- [The Complete React Native + Hooks Course [2020 Edition]](#)
- [The Complete 2021 Flutter Development Bootcamp with Dart](#)
- [The Complete Flutter UI Masterclass | iOS, Android, & Web](#)
- [The Complete Android Oreo Developer Course - Build23 Apps!](#)
